

JXB-178

Infrared Thermometer

SPECIFICATION

Unit size: 187*120*57 mm(LxWxH)

Unit weight(without battery): 80g

Temperature display resolution: 0.1C(0.1F)

Consumption: ≤300mW

Memory: 32 sets

Normal using condition:

Ambient temperature: 10°C ~ 40°C (50°F ~ 104°F)

Relative humidity: ≤85%

Audible alarm if temperature is more than 38°C (100.4°F)

It can be displayed in either Celsius or Fahrenheit

Longevity use 100,000 readings

Eliminates cross contamination

Hygienic and easy to use

Accuracy: ± 0.3°C (0.6°F)

Response Time: 1 sec

Suggested Age: Newborn and Up

Automatic power-off: <30 secs

High Accuracy

Non-Contact Measurement

With bothering the baby and they feel no discomfort, the thermometer with high-end sensors is of high accuracy to detect and read the temperature within 1 second, with $\pm 0.2^{\circ}\text{C}$ Tolerance.

There is an Easier Way to Measure Temperature.

Day or night, adult or baby, or even a pet dog, it is the perfect and quickest way to measure our families temperature, with no fuss.

99.8% Pass Rate

Manufacturing is Taken Seriously at Berrcom.

We are sure to promise that your business with Berrcom is a smart choice. A good product comes from not only design but also manufacturing.
