

DOUBLE CUP NECKBAND EARMUFF

Features:

ADJUSTABLE

MOVABLE

Double CARE Double the SAFETY

Fitting Instructions:

1. Pull the cups outward to position the earmuff into your ears. (picture A)
2. Position the ear cups over your ears so that the cushions fully enclose the ears and seal tightly against the head. (picture B)
3. Adjust the height of each ear cup until you have a tight and comfortable fit that exerts even pressure around the ears. (picture C)
4. Neckband should be behind the neck. For best results, remove all hair under cushion. (picture D)
5. Lock the strap with a hook on the top of the head and make it tight. (picture E)
6. Noise reduction will be adversely affected by anything that impairs the seal of the earmuffs cushions against the head such as thick spectacle frames, balaclavas, etc. (picture F)

Perfect for:

Music

Racing

Work

Industrial

With Helmet

Shooting

Study

Airport

Travel

Without Helmet

HIGH PERFORMANCE TECHNOLOGY

- **Soft premium foam** - It adds comfort and better seal around your ears.
- **Second super thick foam** - More effective in blocking sound.
- **Sound block solid cup** - Unique outer plastic shell for high performance.
- **Dielectric** - Withstands use and abuse, while protecting workers in electrical environments.

SNR 31 Decibels

SNR (Signal-to-noise ratio) is defined as the ratio of signal power to the noise power, often expressed in decibels. A ratio higher than 1:1 indicates more signal than noise.
